KEY FUND FEATURES

3. What am I investing in?

Launch date	8 March 2019
Initial Offer Period	Not more than 20 calendar days commencing from the launch date. The Manager may shorten the IOP. The Manager may shorten the Initial Offer Period.
Initial Offer Price	RM1.0000 (Fixed during Initial Offer Period)
Objective of the Fund	The Fund aims to provide Medium to Long Term capital growth. Any material changes to the Fund's objective would require Unit Holder's approval.
Investment Strategy	The Fund will invest a maximum of 100% of its NAV in domestic and foreign equities, equity-related securities and collective investment schemes, to achieve its objective. The Fund may concentrate its investments wholly in securities of a company or Units in a single collective investment scheme that have potential for capital growth. The Fund may also invest in unlisted securities and placement of deposits with Financial Institutions. The Fund may take a temporary defensive position, which may be inconsistent with the Fund's investment strategy, in attempting to respond to adverse economic, political or any other market conditions such as changes in interest rate policy and introduction of a new policy which may affect the equity markets. The Fund may reduce its exposure in equities and increase its exposure in deposits or collective investment schemes (including non-equity related unit trust funds). The temporary defensive position shall be taken for a period of not more than 6 months with the prior approval from the investment committee. However, the position could be held for a longer period with the approval from the investment

	committee during prolonged adverse market conditions. The Manager will re-align the Fund to its principal investment strategy when the market conditions improved.
Asset Allocation	Equities, equity-related securities and collective investment schemes Up to 100% of its NAV
Performance Benchmark	Absolute returns of 10% per annum
Distribution of Income and Reinvestment Policy	Incidental, Subject to the availability of distributable income. In the absence of any instructions, we will, at our discretion, reinvest the income into another unit trust fund as determined by the Manager at the NAV per Unit of the distribution day without any entry fee.
Financial Year End	30 April

4. Who am I investing in?

Trustee	Maybank Trustees Berhad (5004-P)
Auditors	Deloitte PLT (LLP0010145 – LCA), Chartered Accountants (AF 0080)
Tax Advisers	Deloitte Tax Services Sdn Bhd (36421-T)

5. What are the possible outcomes of my investment?

There are many possible outcomes associated with an investment in the Fund and involves some degree of risk. Investors are to take note that the value of an investment in the Fund and its distributions payable (if any) may go down as well as up and are not guaranteed. The value of your investment is at risk depending on the underlying investments of the Fund.

Under normal circumstances, the Manager aims to out-perform the Fund's benchmark, the Absolute returns of 10% per annum. However, on the flip side, the Fund may post a much lower return or even incurring losses if one or more of the key risks occur. **In the worst scenario where all the investments of the Fund are in default or suspended, investors may lose part or even all of your initial investments.**

KEY RISKS

6. What are the key risks associated with this fund?

PLEASE BE ADVISED THAT IF YOU INVEST IN UNITS THROUGH AN IUTA WHICH ADOPTS THE NOMINEE SYSTEM OF OWNERSHIP, YOU WOULD NOT BE CONSIDERED TO BE A UNIT HOLDER UNDER THE DEED AND YOU MAY CONSEQUENTLY NOT HAVE ALL THE RIGHTS ORDINARILY EXERCISABLE BY A UNIT HOLDER (FOR EXAMPLE, THE RIGHT TO CALL FOR A UNIT HOLDERS' MEETING AND TO VOTE THEREAT AND THE RIGHT TO HAVE YOUR PARTICULARS APPEARING IN THE REGISTER OF UNIT HOLDERS OF THE FUND).

Below are the risks associated in the product which may cause significant losses if they occur.

GENERAL RISKS OF INVESTING IN THE UNIT TRUST FUND

- **Market Risk**
Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's net asset value.
- **Manager's Risk**
This risk refers to the day-to-day management of the fund by the manager which will impact the performance of the fund. For example, investment decisions undertaken by the manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund.
- **Performance Risk**
As a result of the risk elements, the returns from a fund are not guaranteed. The value of the fund's investment will vary when sold and an investment may be worth more or less than when purchased.

- **Inflation Risk**
This is the risk that investors' investment in the fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.

SPECIFIC RISKS ASSOCIATED TO THE FUND

The Fund may invest up to 100% of its NAV in a single issuer such as investment in a single securities of a single company or Units in a single collective investment scheme. The Fund is suitable only for investors who are able to accept high concentration risk and have a Medium to Long term investment horizon.

You are advised not to invest in this Fund if you are not able to accept the risks.

- **Liquidity Risk**
Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.
- **Stock Specific Risk**
Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stocks will adversely affect the Fund's NAV.
- **Equity-related Securities Risk**
The Fund invests in equity-related securities such as rights and warrants, where price movement is dependent on the price movement of the underlying equities. The risk is generally higher than their underlying equities as these equity-related securities are leveraged form of investment. The price of equity-related securities generally fluctuates more than the underlying equities and consequently may affect the volatility of the Fund's NAV.
- **Concentration risk**
Concentration risk is the probability of loss arising from lack of diversification, investing with a single issuer. The strength of the issuer may be affected due to changes of financial performance, news of a possible merger or loss of key personnel of the issuer.
- **Country Risk**
Investments of the Fund in any foreign countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of the countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV or prices of Units to fall.
- **Currency Risk**
As the base currency of the Fund is in Malaysian Ringgit, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice-versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.
- **Counterparty risk**
The Fund's placements of deposits and/or investments in money market instruments with Financial Institutions are subject to the risk of the counterparty. Counterparty risk also refers to the possibility that the counterparty being unable to make timely payments of interest and/or principal payment on the maturity date. This may then lead to a default in the payment and/or interest and ultimately, affect the NAV per Unit of the Fund.

The abovementioned risks which you should consider before investing into a wholesale fund should not be considered to be an exhaustive list.

You should be aware that investments in the Fund may be exposed to other risks of an exceptional nature from time to time.
